

P50, P50 Flex

Hand Probes

The P50 Hand Probe, with aluminum handle and steel neck, is an extremely robust tool for demanding applications. Available with rigid and flexible neck, the P50 hand probe is intended for use on Sensistor ISH2000 Hydrogen Leak Detectors. It has built-in intelligence, facilitating the operator's control of the instrument. Easy sensor change allows operators to replace the sensor in a matter of seconds, thus minimizing maintenance cost and time. The ergonomically designed grip informs the operator about which direction the probe tip is pointing, saving time and improving accuracy.

P50 Hand Probe, rigid neck

BENEFITS

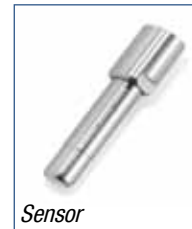

- Simple sensor change in less than a minute
- Improved design for enhanced durability
- Red and green LED indicators for Leak / No Leak
- White LED lamp that illuminates the area of leak search around the probe tip
- The multifunction probe button can be set for activating the zero function when working in high backgrounds of tracer gas
- Ergonomic handle with hand sensed direction of probe tip
- Lightweight, only 200 g (0.4 lb)

MODELS

- P50 (rigid neck) P/N 590-780
- P50 Flex (flexible neck) P/N 590-790

COMPATIBILITY

- Sensistor ISH2000, Hydrogen Leak Detector (or previous model ASH2000)

P50 Hand Probe, Flexible neck

ORDERING INFORMATION

	PART NO.
P50 Hand Probe, with rigid neck	590-780
P50 Flex Hand Probe, with flexible neck	590-790
C21 Probe Cable, 3m (9.8 ft.)	590-161
C21 Probe Cable, 6m (19.6 ft.)	590-175
C21 Probe Cable, 9m (29.5 ft.)	590-165
Probe Tip Protection Caps (50-pack)	591-273
Spare sensor	590-292
