

# PX57

## Ex Certified Hand Probe

The PX57 Hand Probe is an elegant and robust hand probe replacing the original PX50 and PX50 Flex Hand Probes. ATEX, IECEx, CSA and NEPSI certified, the PX57 Hand Probe is an accessory to the EXTRIMA Ex Certified Hydrogen Leak Detector (see compatibility below). Easy sensor change allows operators to replace the sensor in a matter of seconds, minimizing maintenance cost and time. The ergonomically designed grip informs the operator about which direction the probe tip is pointing, saving time and improving accuracy. The PX57 Hand Probe is available with rigid and flexible neck.

### BENEFITS

- Simple sensor change in less than a minute
- Improved design for enhanced durability
- LED indicators for Leak / No Leak
- Ergonomic handle with hand sensed direction of probe tip

### MODELS

- PX57 (rigid neck), P/N 590-606
- PX57 Flex (flexible neck), P/N 590-607 (included as standard in shipments of the EXTRIMA Ex Certified Hydrogen Leak Detector)

### COMPATIBILITY

- EXTRIMA Ex Certified Hydrogen Leak Detector

The new PX57 / PX57 Flex Hand Probe is NOT immediately compatible with old versions of the EXTRIMA Hydrogen Leak Detector. EXTRIMA units must be upgraded to be used together with the new PX57 Hand Probe. Contact the INFICON office nearest to you for more information.

**ORDERING INFORMATION**

	PART NO.
